

P72 7.62 x 39mm **ASSAULT RIFLE**

FEATURES

SSS Defence weapons have been engineered with the needs of the operator in mind. They are highly effective individual automatic weapons designed for special forces, army element and law enforcement personnel and guarantee high quality, strength and endurance. The P72 is a fully automatic assault Rifle chambered for the 7.62x39mm cartridge. The P72 joins the crop of other AK variants & clones in its use of a long stroke piston system but has a more balanced weight distribution relative to other AK variants. It is among the only 7.62x39mm assault weapons that comes with a left side non-reciprocating charging handle - a unique attribute for squads operating in confined spaces. Featuring a milled receiver, the weapon has Integral Rails at 12 & 6, M-LOK Rails at 3 & 9 positions and provides ample space for mounting accessories such as sights, lasers. The standard 16" barrel is offered with a chrome plated or Nitride finish and gives an effective range of 400-500 meters. The gas-operated long-stroke piston mechanism delivers dependable performance, reducing recoil for precise follow-up shots. This combination of power and control makes it lethal in diverse combat scenarios.
